FLY2WORK Toolbox for identification of needs

The Toolbox for identification of needs and all the translations are ready!

The TOOLBOX is divided into two parts:

In part 1, we conducted a detailed research on youth employability using secondary sources. We analyzed labor market trends, challenges faced by young people when entering the job market, and the skills and competencies required for success.

In part 2, we conducted field research to obtain first-hand information on youth employability. We interviewed key stakeholders, including employers, unemployed youth, and career guidance professionals.

FLY2WORK Handbook of Boarding Methodology

We just started the Project Result 2:

PRACTICAL HANDBOOK OF BOARDING METHODOLOGY: TOOLS, TRAINING MATERIALS AND KPIs

Objective: The Handbook about the Boarding Methodology intends to bring both tools to get clarity between the requirements and the expectations but also tools and strategies to support companies delivering a smooth onboarding.
