

FLY2WORK – Farewell to the project

Newsletter 10
End of February 2024

Fly2Work ends with successful results

The Fly2Work project is coming to an end this month. The project team is proud to have achieved the promised results, which will translate into better onboarding plans that will improve the employability of young people in Europe.

TOOLBOX FOR THE IDENTIFICATION OF NEEDS

This toolbox establishes a simple process on how to assess the state-of-the-art of youth unemployment problems. The publication defines a set of tools that will help to identify the needs of the participants and stakeholders through focus groups, as well as the successful ongoing methodologies used to design onboarding plans.

PRACTICAL HANDBOOK OF BOARDING METHODOLOGY

This handbook intends to bring both tools to get clarity between the requirements and the expectations, and tools and strategies to support companies in delivering a smooth onboarding, which are two aspects that are lacking in the companies' onboarding processes.

ONLINE DIGITAL COURSE

This online course is addressed to both organisations seeking young employers and youngsters willing to prepare for work life. It describes the findings and tools developed in the previous two results, in a format that is more accessible and easier to follow.

Keep track of our findings!

Even though the project is now over, the Fly2Work website and LinkedIn page will still be available. Moreover, you can keep track of the project team on the communication channels of each partner.
